

Every year we celebrate
our amazing students and
their talents by hosting a
family and community
event called ...

Art
from the
Heart

Even though we
can't be together,
we still want to
showcase our talents
and creativity so we
will be having...

Art from the Heart

HOME EDITION

First, we will
learn a little
about an
artist
called...

ANDY GOLDSWORTHY

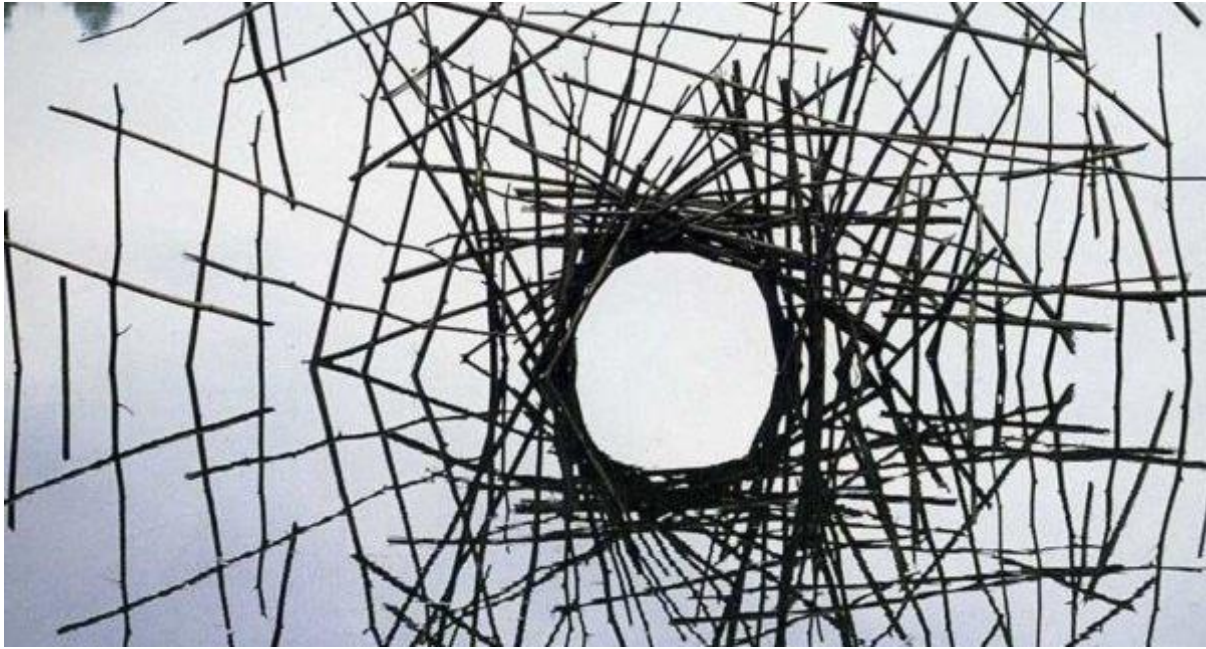

Andy Goldsworthy is a sculptor and photographer who makes art using natural materials such as flowers, mud, ice, leaves, twigs, pebbles, boulders, snow, bark, grass and pine cones.

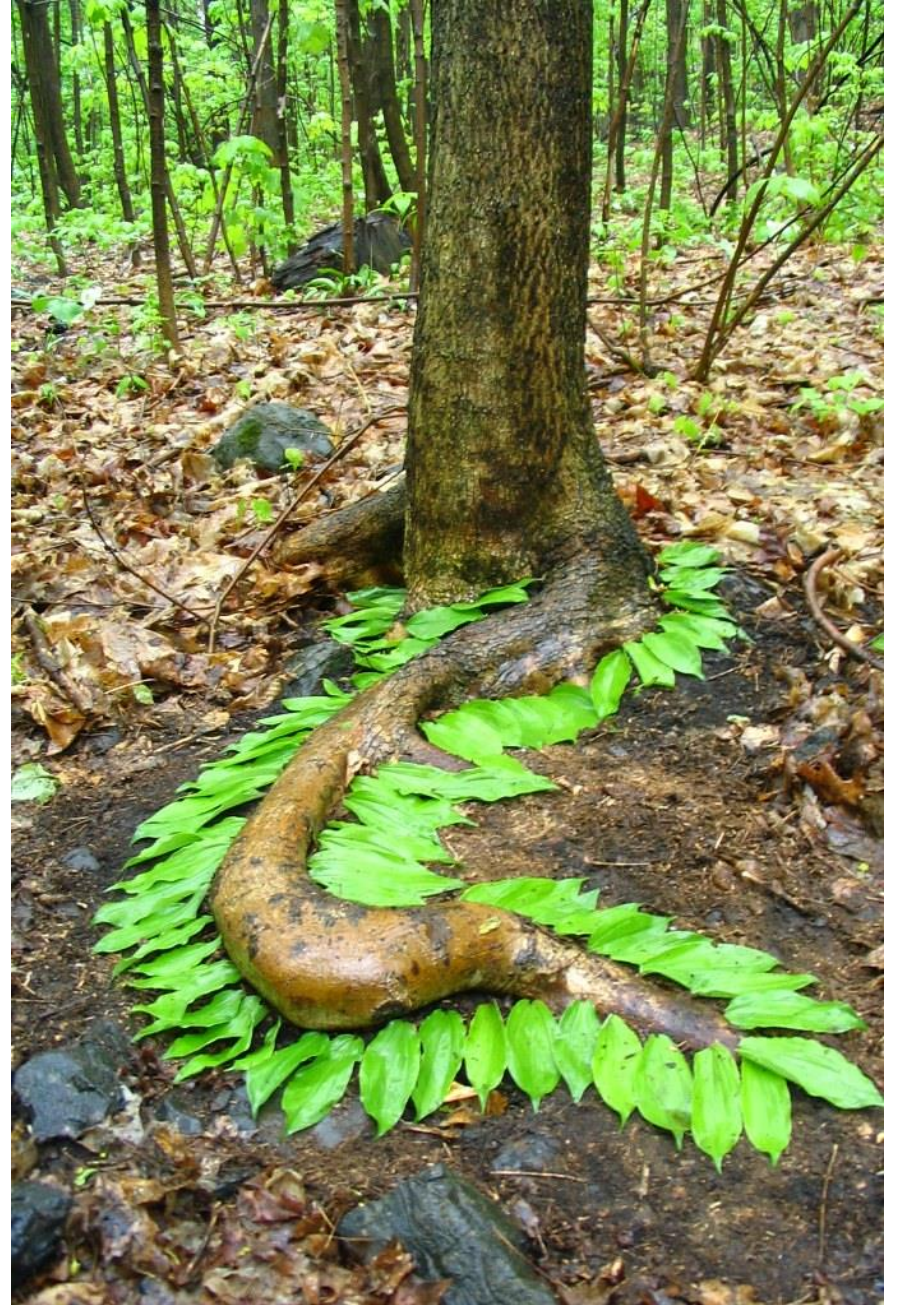

**HERE IS SOME OF HIS ART AND
SOME INSPIRED BY HIM....**

Take a close look at the different materials from nature and how he uses them.

MEREDITH'S ART

Meredith is a student at Rothesay Park. She learned about Andy Goldsworthy at school. She found this tree that had fallen and this is what she created...a moose!

YOUR TURN!!

This year, you will be creating your own art inspired by Andy Goldsworthy using natural objects. You can do your own or work with your family to create art together!

Remember to try and find natural items already down. If you want to pick something, make sure you ask permission first!

TAKE A PICTURE!

If you make more than one thing, you can make a picture collage of your own natural art.

TELL US ABOUT YOUR ART!

Tell us a little about why you made what you did and what materials you used. Your teacher will send you an artist's statement to go with your picture.

- Title: My Piece of Nature
- Artist: Ms Creighton
- I used pine cones, maple tree seeds and leaves to make a pattern that I think looks a little like my dog.

SEND US YOUR PICTURE AND YOUR ARTIST STATEMENT

- Please have all art submitted to your classroom teacher by: **June 8th**
